# ADA'S TEAM

2018-2019 academic year

Our mission is to promote diversity in Computing Science at the University of Alberta. This is everything we did in one academic year to change the culture here at uAlberta.

300+ FREE TUTORING HOURS OFFERED TO UNDERGRAD'S

We offer free tutoring for 2 reasons. First, we hope that underrepresented groups in computing science will come in and ask for help instead of feeling discouraged. Second, we hope that all students can see diverse tutors as role models and success stories.

16.43 TIMES WE HAVE TRAVELED AROUND THE WORLD

We have traveled to 2 different countries, 2 different provinces and 4 different cities to meet other amazing diverse people in tech. We have traveled over 200,000 kms to complete interviews, see amazing presenters, present ourselves and grow as programmers and as people.

230 KIDS WERE TAUGHT ABOUT COMPUTING SCIENCE

Throughout the year we were able to teach kids all about how to wire arduinos, how to use 3D modeling tools, how to program with scratch, how robots can use localization to move around and how to program a robot to recognize faces.

450 UNIVERSITY STUDENTS HAVE ATTENDED OUR EVENTS

We run events that help students with classes, job searching and even showing them a path to academia. We have done GitHub tutorials, resume tutorials, networking tutorials, hackathons and much more!

75+ MEMBERS OF THE COMMUNITY EDUCATED ON DIVERSITY

Whether we networked at a conference, spoke at a conference or ran into different people at meet-ups there is always the opportunity to talk about things we are passionate about and the next project we are working on.

21,000 SPENT THROUGHOUT THE YEAR

Everything from plane tickets to posters, from hotels to hot chocolate, from robots to cookies. We try to budget and purchase as efficiently as possible in hopes to ensure more students can have funding.

10 EXECUTIVES TO PULL THIS ALL OFF

Although there were also many wonderful volunteers. These executives worked together and spent hours to make this all happen. They did this on top of their classes, jobs and personal lives.

5 YEARS AS A STUDENT CLUB

Ada's Team was started in 2013. The executive started as just 3 people, but throughout the years we have continued to grow. We are a such a new student club. This is how far we have come in the past 5 years. Imagine where we will go.
